## **Immediate Release**

**March 8, 2013**

**NAB Booth SU6505**

### **DVEO Approved for Membership in the Intel® Technology Provider Program**

#### **Designation Comes as DVEO Launches New Video Distribution Server and 40 Channel Transcoder that Utilize Multiple Intel® Xeon® Processors**

**San Diego, California** -- DVEO, the broadcast division of CMI, announced today that they have been selected as an Intel® Technology Provider: Gold Partner. To attain Gold Partner status, Intel® requires partners to meet specific sales and training requirements.

"We are proud and honored to be selected as a Gold Partner," stated Scott Grizzle, Product Manager for DVEO. "Our membership in this program reinforces our position as a rapidly growing provider of video transport equipment, including solutions for streaming, encoding, decoding, transcoding, time shifting, and more. Most of our systems are built on dependable Intel® Xeon® 4, 6, and 8 Core processors."

At the NAB (National Association of Broadcasters) Show in Las Vegas, Nevada, April 8-11, at booth SU6505, DVEO will demonstrate numerous products that utilize Intel® Xeon® processors. Featured products include the Reality Live™ video content distribution server, the MPEG Magnus™ 40 channel transcoder, the Xaris™ Video playout server with HD SDI or ASI outputs, the Infinity Streamer™

continuous HLS streaming appliance, the DelayServer IP™ time delay system, and the Ad Server Telco IP/IP 20ch™ graphics, EAS, and video clips inserter.

The Intel® Technology Provider Program is designed to support the sales and marketing efforts of all channel partners that specify, design, build, or resell Intel-based technology solutions through a single, integrated membership program. The Intel® Technology Provider Program provides its partners with the resources to deliver Intel hardware and/or technology solutions that effectively address customers' business challenges. Intel partners receive access to in depth training via webinars, seminars and events, and training courses.

"The Intel® Technology Provider Program gives customers a way to identify companies that have proven their commitment and expertise in delivering Intel® technologies. Gold partners must meet a higher set of criteria for all categories," said Richard Phamdo, Business Development Manager for Intel. "With their commitment to Intel® Xeon® 4, 6, and 8 Core processors, DVEO has clearly demonstrated that its products are highly reliable. We are pleased to have DVEO as an Intel® Technology Provider Gold Partner."
