DVEO Signs Agreement to Distribute Multi Function Color Accurate Studio Monitors from BON Electronics, Inc.

Professional Multi Function LCD Monitors for Broadcast, Quality Monitoring, Field Operations, and Video Editing are Now Shipping

San Diego, California -- DVEO, the broadcast division of Computer Modules, Inc. (CMI), announced today that it has entered into a reseller agreement with BON Electronics, Inc., a manufacturer of multi format LCD broadcast monitors for master control, field, or studio use.

DVEO is now reselling BON Electronics' exceptional line of professional-grade LCD monitors designed for broadcasters, video editors, and video animators. These monitors are full-featured with all requested options. BON Electronics offers a wide range of these monitors, including field monitors, quad input monitors, and EBU Class 1 and 2 studio monitors. The focus of EBU Class 1 monitors is quality assurance and video editing workstations at post production houses.

The monitors are available in sizes from five to 55 inches. Supported video inputs include analog (composite or component), DVI, VGA, HDMI (with HDCP) or dual channel HD/SD-SDI.

with Dual Link HD-SDI Inputs**

BON Electronics monitors feature color calibration software, selectable gamma modes, and selectable color spaces to match various broadcast standards. A dual display and split screen function with Freezing mode enables two input signals to be displayed side by side. Other useful features include waveform and vector scope display, focus assist, video range check, and an audio level meter.

“We are proud to recommend BON Electronics monitors to our customers,” said Laszlo Zoltan, Sales Manager for DVEO. “BON Electronics has been developing innovative studio monitors for almost 25 years. These are well-designed post production oriented monitors that display video and audio levels, color coordinates, and picture in a picture, or picture and a picture.”

“We are very pleased that DVEO has added our monitors to their extensive line of broadcast products,” commented Daniel Lim, Executive Director for BON Electronics, Inc. “We look forward to a very successful partnership.”
