Immediate Release

NAB Booth #N1755

Transport Stream Master, a Real-time Video to MPEG-2 T.S. Encoder with DVB-ASI Output will be shown by CMI at NAB

April 7, 2003 – Las Vegas, Nevada CMI , professional video broadcast division, DVEO, has developed the TS Master real-time video to DVB-ASI encoder to provide a high-quality, yet affordable Transport Stream encoder for cable and Satellite operators. The TS Master provides the industry's first compact and affordable live streaming system within a 1-RU 19" in-rack enclosure. Our MPEG-2 encoder provides Y/C and composite inputs and encodes to full D1 resolution at up to 10Mps.

The TS Master features remote management, and offers scalable resolution from ½ D1 to Full D1 with an interface to conditional access. Other features offered by The TS Master include; Low latency, DVB-ASI outputs, unbalanced audio standard, C.B.R. support, as well as Audio PID settings.

About CMI

CMI is a privately held company founded in 1982 by Laszlo (Les) Zoltan headquartered in San Diego, California. DVEO, the recently formed Professional Broadcast Division of CMI sells DVB ASI, SMPTE 310M, SMPTE259M, SMPTE292M, and HDTV products to the top television broadcast companies throughout the world.
