

DiviPitch™

DTV / MPEG2-TS Stream Player

The DiviPitch is a stream player in a pocket-sized and robust device. It allows to turn your desk or laptop into an MPEG2 Transport Stream player with DVB-ASI full support

DiviPitch features simulation of a broadcast chain with one device and information on PIDs and TS properties of the current playing stream.

It offers also the possibility to have an ASI output and a SPI output on the same device which represents a real added value.

Enensys implemented a new software : DiviSeries All in One Software. It allows to check any Divis Applications on news and very intuitive GUI. Divipitch Monitoring screens can be totally customized and loaded. User can also save file analysis (offline analysis available).

Applications

- Broadcast chain testing
- R&D Streams
- Test streams playback
- Portable Demonstration Setup

Benefits

- Easy stream feed to any broadcast equipment
- Command line package for automated testing
- Compact and USB-self-powered device
- Robust and flexible (QA and testing)

Characteristics

- 1 DVB-ASI output
- 1 DVB-SPI Output (optional)
- Play list handling
- Segment/loop play modes
- Packet size changing
- Raw Mode support
- Play List Handling
- PIDs, TS properties
- Remove null packets
- Compatible Windows 7 (32b)

DiviPitch™

DTV / MPEG2-TS Stream Player

Input Interfaces

DVB-ASI Connectors 1x BNC (female) - 75 Ω
 10 Kbps to 214 Mbps

Stream Playing

- Off-line stream analysis
- Loop/segment play modes
- Raw Data play mode
- Stream play-list handling
- Bit rate autodetection with PCRs
- Null Packet Removal

Environment

Operating temperature 0 to 55°C / 0 to 122 °F
 Storage temperature -20°C to 70°C / -4°F to 158°F
 Humidity 0 to 95%, non condensing

Physical and Power

Length 115 mm / 4.5 in.
 Height 62 mm / 2.4 in.
 Width 27 mm / 1 in.
 Weight <100g
 Power supply USB2.0 self-powered

Ordering codes

DVB-ASI Stream Player DiviPitch
 Shipped with software (Windows 2000/XP)
