Features

- Supports both HD and SD H.264/MPEG-4 AVC or optional H.265/HEVC transcoding with “virtual” stream replication
- Input: One or two GigE IP inputs (H.264, MPEG-2, VC-1, or optional H.265) – UDP, RTP, RTSP, HTTP, HTTP Live, RTMP (pushed from Flash server)
- Supports NewTek™ NDI® input
- Outputs: Multiple simultaneous IP streams through two GigE ports (RJ45) or two 10 Gig ports
- IP output protocols: UDP, RTP, HTTP, HTTP Live (HLS), RTMP (Open Flash)
- Supports HLS (adaptive) for output to mobile devices
- Supports logo insertion, text overlay, and SCTE 35 compliant cue tone insertion (“ad markers”) on outputs
- Able to upconvert incoming SD streams to HD, and scale down
- Tested with leading CDNs (Verizon®, Akamai®, Tulix™, Ustream®, etc.)
- Supports Octoshape™ and Verizon® upLynk natively
- Supports H.264 High Profile @ Level 4.0 (HP@L4)
- Supports 1080i, 1080p, 720p, 576i, 480i, 480p, CIF, QCIF, qHD, H.264up and many others, and custom resolutions
- Supports 50 HLS users natively. Optional built-in server supports 1,000+ simultaneous HLS, DASH, and/or RTMP users.
- Transcodes up to 7 720p60 HD streams, or 5 1080i/p HD streams, or 20 SD streams simultaneously.
- Tested with leading CDN providers
- Tested with major brands of IP devices including Amino™, Roku®, Tely, Android™, and Apple iPad® and iPhone®
- Tested with major brands of professional H.265, H.264, and MPEG-2 decoders and video servers
- Remote GUI includes scheduling
- SNMP, REST, SOAP support for remote management and monitoring
- Relies on Intel® Xeon® processor
- Now! QUALYS certified to Level 2 for Critical Vulnerabilities like Open Ports, Tracking applications with COBIT, FISMA, HIPAA, NERC, PCI DSS, SANS, SCAP compliance

Overview

Inexpensive high volume hardware platforms combined with highly enhanced open source Linux® based software offer great value to all willing to embrace the future. Furthermore, Intel’s architecture is highly tuned to encoding and transcoding tasks. We offer high quality and high reliability transcoding solutions that are based on open source libraries. We enhance the libraries by rewriting critical sections to obtain outstanding reliability and throughput.

The Brutus™ I IP/IP: TELCO is a highly affordable Intel® Xeon® processor based multi channel IP to IP groomer and transcoder designed for capturing IP content and streaming appropriately groomed content to iPads, iPhones, content delivery networks, and remote video devices.

The Brutus I IP/IP: TELCO is designed to be an affordable platform to ingest video from multiple IP transport streams, transcoding the MPEG-2 to the H.264 or optional H.265 standard, and provide ample choices for resolutions, protocols, wrappers, and containers. This is easy to do since quality and reliability are built into the Linux® environment.

This unit is designed to be affordable, scalable, and extendable. Modifications to video formats and features are easily created. Remote management is via a web GUI and multi level security is newly built in.

Applications

- Transcode SPTS or MPTS from MPEG-2 to H.264 or optional H.265
- Transcode from H.264 to MPEG-2
- Adding new protocols and wrappers (HLS, RTMP) to transport streams
- Audio transcoding from AC-3 to AAC, MPEG-1 Layer II to AAC, AAC to AC-3
CDNs Tested With:

1. Akamai
2. Limelight
3. Tata
4. Octoshape
5. CDNetworks
6. Internap
7. Highwinds
8. Verizon
9. Ustrea
10. Mirror Image
11. Tulix
12. More to come!

*Certified

Specifications

Input Parameters:
- Supported Resolutions – Input and Output:
  - qHD
  - 1920 x 1080
  - 1280 x 720
  - 720 x 576
  - 720 x 480
  - 704 x 480
  - 640 x 480
  - 480 x 480
  - 480 x 320
  - 320 x 240
- Also supports any custom resolution not listed here, including computer formats like 1280 x 1024, etc.
- Supports PAL TO NTSC conversion but not NTSC to PAL.
- Supports closed captioning.
- H.265 output resolutions supported are 1080, 720, 576, 480.
- H.265 576/480 resolutions only have 4:3 aspect ratio.

Output Parameters:
- IP Output:
  - Outputs: Transcodes up to 5 HD 1080i or p, or 7 each 720p60 streams, or 20 SD streams simultaneously.
  - Type: IP-multicast, IP-unicast with “wrappers”
  - Bit Rates: Multiple H.264, MPEG-2, and/or optional H.265 video streams at different bit rates (.1 to 15 mbps).
  - Quality: 8 bit encoding with 4:2:0 color sampling.
- Video: NTSC or PAL.
- Latency: 1.2 seconds (fixed).
- IP Ports: 2 each 10 GigE, 2 each 1 Gig.

Administration:
- Access: Web interface, SSH (Secure command line interface)
- SNMP: Monitoring and alerts
- Scheduling: On, Off support for timeslots
- Remote: REST, SOAP

CPU and Operating System:
- CPU: Intel® Xeon® processor
- OS: DVEO embedded Linux® in SSD

Physical & Power:
- Size (W x D x H): 19 x 20.5 x 1.75 inches (483 x 521 x 44 mm)
- Voltage: 00V-240Vac, 47-63Hz, 5-2.5A, 300 watts
- Operating Temperature: 0°C ~ 40°C (32°F~ 104°F)
- Non-operating Temperature: -40°C ~ 70°C (-40°F~ 158°F)
- Operating Humidity: 20% to 90% RH non-condensing
- Non-operating Humidity: 5% to 95% RH non-condensing
- Weight: 17 lbs. (7.7 kg)
- Redundancies: Dual power supplies, Port redundancies
- Memory: 32 GB DDR3
- Conformities: UL, BSMI, CSA, FCC, CE, RoHS

Security:
- Ad Insertion: SCTE Ad Marker insertion via RS232, USB, IP, Contact closures

Ordering Information

Brutus I IP/IP: TELCO
Tech Support – One year support and updates, included
Option 1: H.265 Transcoding
Option 2: DVEO GOLD CARE™
Option 3: DOZER™ Automated UDP Packet Recovery
Option 4: 4:2:2 10 bit encoding
Option 5: Built-in “Mini Atlas” server
