Streaming professionals need quality ease of use and support.

Real time, highly reliable, 1 RU, quick starting, standards compliant, embedded Linux® based, remotely manageable, single channel SD or HD (SDI), H.264/AVC or optional H.265 TS Encoder. Incorporates a "minimal" Linux® kernel (residing on an SSD) yielding a professional encoder manageable from anywhere via web GUI.

Supports most industry standard "protocols" like UDP or RTP with unicast or multicast, and “Wrappers” such as HLS, RTMP, etc. Audio output is AAC, MPEG-1 Layer II, optional MP3, and/or optional “SurCode for Dolby Digital” AC-3. Supports closed captioning and teletext with overlay.

Encodes streams with multiple resolutions at .1 to 15 Mbps at popular GOP sizes, frame rates, refresh rates, or aspect ratios. Simultaneously creates high, medium, and low bitrate ABR streams to hand off to your content delivery networks (CDNs) with required authentication, for "One to Many" distribution. Software is scanned for vulnerabilities and open ports. Supports 50 simultaneous HLS users. With optional Atlas™ add-on, supports 1,000 RTMP, DASH, and/or HLS users natively.

Applications

- 24x7 Unattended Streaming to CDN’s and Media Servers
- Streaming video to CDNs and web sites like Ustream®, Akamai®, Octoshape™, Verizon®, etc.
- Backhaul/Monitoring for Broadcasters
- Military, Corporate Video, Religious Services, Special Events
- Origin Encoder for Grooming Servers
- Event streaming via ISPs or CDNs

Features

- Thousands in use worldwide
- Inputs: One SDI or HD-SDI input, and GigE IP port
- Supports NewTek™ NDI® input
- Optional single HDMI input instead of SDI/HD-SDI input
- Optional stream archiving
- Outputs: Multiple simultaneous IP streams through GigE port (RJ45), SDI or HD-SDI video loop through
- IP output protocols: UDP, RTP, HTTP, HTTP Live (HLS), RTMP (Open Flash)
- Certified by Akamai®
- Supports HLS (adaptive) for output to mobile devices and MPEG-DASH
- Supports logo insertion, text overlay, and SCTE 35 compliant cue tone insertion (“ad markers”) on outputs
- Web GUI is manageable from anywhere – includes some scheduling
- Able to upconvert incoming SD streams to HD, and scale down
- Tested with leading CDNs (Verizon®, Akamai®, Tulix™, Ustream®, etc.)
- Supports Octoshape™ and Verizon® upLynk natively
- Supports H.264 High Profile @ Level 4.0 (HP@L4)
- Supports 1080i, 1080p, 720p, 576i, 480i, 480p, CIF, QCIF, qHD, H.264up and many others, and custom resolutions
- Supports 50 HLS users natively. Optional built-in server supports 1,000+ simultaneous HLS, DASH, and/or RTMP users.
- Audio Output: AAC, MPEG-1 Layer II, optional MP3, and/or optional “SurCode for Dolby Digital” AC-3
- Support for Variable Bit Rate (VBR) encoding maximizes adaptive streaming video quality and bandwidth efficiency
- Tested to work with Atlas™, Wowza®, and Adobe® Flash® media servers
- Tested compatible with major brands of IP devices including Amino™, Roku®, Telyery, Android™, and Apple iPad® and iPhone®
- Tested compatible with major brands of professional H.265, H.264, and MPEG-2 decoders and video servers
- SNMP, REST, SOAP support for remote management and monitoring
- Relies on Intel® Xeon® processor
Application Example

Overview

The MultiStreamer™ is a family member of our flagship cost effective origin encoders. This family has been in production for seven years and we have shipped over 3,000 units. It is designed as a general purpose workhorse, able to stream several simultaneous streams at different resolutions with any streaming protocols.

Inexpensive high volume hardware platforms combined with highly enhanced open source Linux® based software offer great value to all willing to embrace the future. We offer high performance streaming solutions that are based on open source libraries. We enhance the libraries by rewriting critical sections to obtain outstanding reliability and throughput.

This unit is designed to be affordable, scalable, and extendable. Modifications to video formats are easily created. Remote management and multi level security is built in.

Inputs and Outputs

Standard Version

LAN       WAN      SDI/HD-SDI
(Either can be Used for IP)

Telco Version

2 each 1 Gig Ports

Dual Power Supplies

2 each 10 GigE Ports

SDI/HD-SDI Inputs

Sample of GUIs

Verizon® upLynk Setup

Network Setup

Scheduled SDI Input Setup

IP Output Setup
Supported Resolutions

<table>
<thead>
<tr>
<th>Supported Resolutions – Input and Output</th>
</tr>
</thead>
<tbody>
<tr>
<td>1920 x 1080</td>
</tr>
<tr>
<td>1280 x 720</td>
</tr>
<tr>
<td>720 x 576</td>
</tr>
</tbody>
</table>

Also supports any custom resolution not listed here.
Note: Does not support 608 closed captioning for SDI input. Only 708 is supported.
Note: Does not support closed captioning for HDMI inputs.
Note: Supports PAL TO NTSC conversion but not NTSC to PAL. H.265 output resolutions supported are 1080, 720, 576, 480. H.265 576/480 resolutions only have 4:3 aspect ratio.

CDNs Tested With:

*Certified

Options

- Optional transcoding to H.265
- HDMI input: Available as an option instead of SDI/HD-SDI input (HDMI)
- Archiving option: One terabyte of local storage (1 TB)
- Optional built-in “Mini Atlas” server supports 1,000+ simultaneous HLS, DASH, and/or RTMP users
- Optional DOZER™ Automated UDP Packet Recovery protocol, enabling error-free video delivery over UDP. DOZER ensures smooth MPEG-2, H.264, and optional H.265 delivery through DVEO patented algorithms for automated packet recovery and re-ordering of out-of-sequence packets.
- TELCO: Redundant power supply and ports

Ordering Information

MultiStreamer DIG/IP: Professional
MultiStreamer HDMI/IP: Professional – HDMI In
MultiStreamer DIG/IP: TELCO – Dual power supply, 4 Gig/E ports, dual inputs for redundancy

Administration

Access: Web interface, SSH (Secure command line interface)
SNMP: Monitoring and alerts
Scheduling: On, Off support for timeslots

CPU and Operating System

CPU: Intel® Xeon® processor
OS: DVEO embedded Linux® on SSD
Hard Drive: 1 TB (Option)

Physical & Power

| Size – 1 RU high: 19 x 14.96 x 1.7 inches (W x D x H) |
| Voltage: 483 x 380 x 43.4 mm (W x D x H) |
| Operating Temp.: 100-240V, 4-2A, 60-50 Hz, 220 watts |
| Operating Temp.: 10°C to 35°C |
| Non-operating Humidity: 20% to 90% non-condensing |
| Weight: 15 lbs. (6.8 kg) |
| Conformities: UL, BSMI, CSA, FCC, CE, RoHS |

Security

Ports security scanned to MIL requirements prior to shipment

Ad Insertion

SCTE Ad Marker insertion via RS232, USB, IP, Contact closures
